Application Essays

Select-A-Prompt Short Response (Required 650 Words)

The essay demonstrates your ability to write clearly and concisely on a selected topic and helps you distinguish yourself in your own voice and demonstrate why you want to study at Stevens Institute of Technology. What do you want the readers of your application to know about you apart from courses, grades, and test scores? Choose the option that best helps you answer that question and write an essay of no more than 650 words, using the prompt to inspire and structure your response. Remember: 650 words is your limit, not your goal. Use the full range if you need it, but don't feel obligated to do so.

Option-1 : Consider the mission of Stevens Institute of Technology. Share how you plan to contribute to and benefit from the Stevens community, highlighting any personal experiences, achievements, or aspirations that demonstrate your commitment to inclusivity and your potential to thrive at our university.

Option-2 : Reflect on a challenge or setback you have faced in your life and explain how you have grown from it. In what ways do you believe this experience has prepared you to thrive academically and personally at Stevens? Additionally, discuss how your unique perspective and ability to overcome obstacles will contribute to the Stevens community and its mission of innovation and excellence.

Option-3 : Discuss an accomplishment, event, or realization that sparked a period of personal growth and new understanding of yourself or others. How does new understanding contribute to potential success at Stevens?
